07:30

Morning.

This book follows our furry friends' care and cleaning routine through one whole day. It starts with paws back from the morning walk and carries on through bath time, fresh moments during the day, the calm scent of home in the evening and the tooth-brushing routine before bed.

On every page, we wanted to share a moment, not just a product. Because care is part of the time we spend with our pets. We made this book to bring the little routines we share with Melo and Dodi every day into your pet's day, too.

Browse the pages in any order. Looking for something? The care map on page 8 and the product index on page 46 are your shortcuts.

Love,

Melo, Dodi & the MelomyPet team

What's in a day.

This book follows one day with Melo and Dodi. Every hour, a care moment.

Dodi
Joy of our home.

the stars of the show!

It all began with Melo and Dodi.

Melo and Dodi are the joy of our home and the spark behind MelomyPet. The everyday care needs we discovered together became our starting point.

Cleaning paws after a walk, combing coats after a bath, looking after the home we share... We see care as part of everyday life, where we keep getting to know our pets and making time for them.

That's why, when choosing products, we look at the need, the area of use and the directions together.

Everyday care for life together.

Good questions.

Do I need to rinse after the paw foam?

No. Spread it with the silicone head, then wipe with a dry cloth or paper towel. No rinsing needed.

Mask or combing spray: same thing?

No. The mask is used in the bath after shampoo and rinsed out; the spray goes on before combing and stays in.

Can I use the room spray on my pet?

No. Room Freshener is for living spaces and items. For the coat, see Lavender Oil Coat Spray.

Does the activated carbon smell like coconut?

No, it's unscented. Coconut shell is simply what the activated carbon is made from.

How long is potty training?

Every dog is different; no result is guaranteed by a set day. Use the spray consistently, as the label directs.

Can I use the detangling spray on my cat?

Yes. Easy-Combing Detangling Spray is for cats and dogs; spray the coat from about 20 cm away.

Is the nose balm OK for cats too?

No. Dog Nose Balm is made only for the nose area of dogs.
